FAMILY

Our goal is for you to have as much fun at the shoot as we do! We'll arrive a few minutes early so we can meet & go over the gist of the shoot. We take a variety of posed & candid shots and have structured the sessions so you can relax, have fun and follow our lead!

Our sessions typically last ~1 hour depending on group size.

KIDS

We LOVE working with kids! They're spontaneous and full of CANDID moments!

Here are a few helpful tips for getting younger clients ready for our session:

- It's important to schedule your session when natural light is best but also when your child will be happiest.

Call us so we can determine the best time for great pics and BIG smiles!

- Please feel free to bring a prop: sand bucket, blanket, dog, etc. We'll have a few beachy props on hand as well such as our little wooden boat & conch shell.
- Take an afternoon siesta. For evening sessions it's important to get a little nap in after a day of sun, sand & swimsuits.
- Fuel up before the shoot, make sure your kiddo's gotten a little snack beforehand and feel free to bring along sugar-free nibbles.
- Most importantly, get ready to have FUN! This is not the dreaded, mall studio experience; We're young, energetic and are gonna have a blast on the beach together!

PETS

Don't forget to bring the "baby" of the family along. We love when clients include their pup in the family session! We have a knack for working with dogs, and if you let us know ahead of time we'll pack some puppy treats in the camera bag!

SENIORS

Not your traditional cap & gown shots, we aim to create images that reflect YOU and your personality. Feel free to create a Pinterest board to share ideas with us or bring along your guitar, pet, car,...anything you love that that makes you stand out.

Sittings include 2 outfit changes and 1 location; an additional location can be added for \$45 and includes a 3rd outfit change.

MATERNITY

What an exciting time! Whether your starting a family or adding on, 6-8 months is the ideal time to schedule a maternity session. Plan 2 outfits that accentuate your baby belly and feel free to contact me about the style & look you'd like to accomplish.

If you're local or on the OBX frequently our "Little Miracles" Package will document this time thru your newborn's 1st birthday in a series of shoots.

LITTLE MIRACLES PORTRAIT SERIES - \$995

3 Portrait Sessions

(maternity, birth, newborn, baby, 1st birthday, up to 2 years)

Personal Online Viewing/Ordering Gallery

\$100 Gift Card to use toward your Print Order(s)

30 Page Keepsake Book

NEWBORN

They grow up so fast! We like to schedule our newborn sessions within 14 days of birth. Babies sleep alot the first couple weeks and don't mind being put in those cute, cuddly poses.

We use only natural light for our newborn session and provide all the necessary posing forms, props, and backdrops. Sessions can be done at your home or come to my in-home studio.
